## DETAILED ACTION

### *Allowable Subject Matter*

The following is an examiner's statement of reasons for allowance: There is prior art regarding Peltier devices. For example, see Pomerene et al. (US6559538) wherein one such device is disclosed (see cover figure). See that the prior art of record teaches Peltier devices in electrically conductive layers, among which bismuth telluride is common.

However, the prior art fail to disclose a Peltier effect device positioned **in** an electrical insulating substrate. Therefore, the prior art fails to either alone or in combination anticipate the present invention above.

For the above reasons the present application is allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elle Cruz whose telephone number is **(571) 272-1928**. The examiner can normally be reached on M-F 10-6:30.
